- Module 7 Multiple Attackers, Improvised Weapons, & Review

Kaname is the name of the small pin that holds a folding fan together. Its the pivot point, the essence, the essential piece that allows a fan to be a fan. It is also a metaphor used for our training this year as what holds our technique together. The Kanji for Kaname can also be used for Shin Shin, Shin Gan, the eyes and mind of God.

\*Students must attend all shinken classes and pass test to receive certificate
